

PETITION FOR ZONING VARIANCE

TO THE ZONING COMMISSIONER OF BALTIMORE COUNTY:

The undersigned, legal owner(s) of the property situate in Baltimore County, which is described in the description and plat attached hereto and made a part hereof, hereby petition for a Variance from Section 400.1 to permit an accessory structure (pool) in the side yard instead of the required rear yard.

of the Zoning Regulations of Baltimore County, to the Zoning Law of Baltimore County, for the following reasons: (indicate hardship or practical difficulty)

- 1) Septic system precludes placement in part of rear yard without considerable expense.
- 2) Rear yard proximity to stream makes placement nearby impractical and unsound.
- 3) side yard location will reduce drainage of adjoining property surface water.

Property is to be posted and advertised as prescribed by Zoning Regulations.

I, or we, agree to pay expenses of above Variance advertising, posting, etc., upon filing of this petition, and further agree to and are to be bound by the zoning regulations and restrictions of Baltimore County adopted pursuant to the Zoning Law for Baltimore County.

I/We do solemnly declare and affirm, under the penalties of perjury, that I/we are the legal owner(s) of the property which is the subject of this Petition.

District: 9th

Dear Mr. Hammond:

The following comments are furnished in regard to the plat submitted to this office for review by the Zoning Advisory Committee in connection with the subject item.

General:

Baltimore County highway and utility improvements are not directly involved.

Development of this property through stripping, grading and stabilization could result in a sediment pollution problem, damaging private and public holdings downstream of the property. A grading permit is, therefore, necessary for all grading, including the stripping of top soil.

The Petitioner must provide necessary drainage facilities (temporary or permanent) to prevent creating any nuisances or damages to adjacent properties, especially by the concentration of surface waters. Correction of any problem which may result, due to improper grading or improper installation of drainage facilities, would be the full responsibility of the Petitioner.

A stream, tributary to Lake Roland, traverses this property, which is within the Roland Run Drainage Area.

Open stream drainage requires a drainage reservation or easement of sufficient width to cover the flood plain of a 100-year design storm. However, a minimum width of 50 feet is required.

This office has no further comment in regard to the plan submitted for Zoning Advisory Committee review in connection with this Item 172 (1980-1981).

RE: Elizabeth G. Kirkpatrick

Dear Mr. Hammond:

I understand from Mrs. Kirkpatrick, who is an old and dear friend and client, that she received tentative approval from your department today to go forward with construction of a swimming pool at her residence, 309 Greenwood Road. I certainly hope that this application can be expedited as Mrs. Kirkpatrick's doctors have highly recommended swimming as the best possible therapy for her artificial hip. Mrs. Kirkpatrick was also delighted with the courteous treatment she received at your hearing, which, alas, is not always the case in some other public offices.
